WHERE **FABRIC** MEETS **FORM**

Specialty fabrics…

Materials do matter. Each fabric used has unique qualities and performs differently in various environments. We use a variety of high-quality printable materials to create fabric structures and displays – namely polyester materials such as stretch, satins, sheers, backlit fabrics and more.

Grand format graphics & finishing…

Graphics are crucial to maximizing your messaging impact and your investment in a tradeshow or event. With the latest state-of-the-art printing technology and large format printing capabilities, we ensure your message pops and stands out from the competition. To ensure the highest quality and perfect fit, all fabric graphics are produced and finished by hand by highly-skilled sewers in the USA.

Radiant lighting …

The perfect balance of form, fabric and lighting can create a powerful, impactful presence and display. Illumination is an important piece of the puzzle to achieve the mood, style and staging that you desire.

Merging shapes and structures with fresh fabric, large format print graphics and lighting creates dynamic and eye-catching displays for tradeshows, events, retail spaces and interior environments.
